

Flexible Polyurethane Foam Composite
Typical Application: Pour-in-place barrier

Surefill® is a revolutionary barrier composite created via a proprietary lamination process to eliminate pin holes seen in flame laminated products

Benefits of Surefill®:

- Adheres to FMVSS-302
- Elimination of pin holes caused by flame lamination
- More pliable and less rigid
- Easier to finesse and load into PIP molds
- Lower scrap rates compared to alternative products
- Enhances design capabilities
- Sewing friendly
- Improves overall composite flammability

Foam Grade	Bond Strength
A173-040NL	3.30N
A192-021RL	3.30N
A195-038NL	3.30N
A300-135NL	2.25N

FXI Proprietary Lamination

Automotive Foam Solutions

We are the largest North American supplier of polyurethane foam products and laminates to the automotive industry. Our technology allows manufacturers to tailor foam materials to customize automotive applications while improving comfort, reducing vehicle weight, and diminishing noise.

SOLUTIONS

We offer foam solutions for comfort, temperature management, acoustics, safety, and ventilation systems. Our production ready technology includes applications for seating, headliners, interior trim, pour-in-place barriers, and instrument panels. FXI innovative product solutions include:

- Climate Flow™
 - SureFill®
 - Sure Form®
 - CustomFit™
 - Trim Craft™
- Plus Pad Portfolio**
- Temperature Regulation Factor® Foams*
 - Pressure Relief*
 - Enhanced Support*
 - Standard Auto Grades

About FXI

FXI is a leading producer of foam innovation in the Bedding, Furniture, Industrial, Home & Office, Healthcare and Transportation Markets. Our focus is on finding tailored solutions for our customers that are driven by consumer insights and industry trends. Our products include finished goods, sub-assemblies, services and raw materials for OEMs, fabricators and retailers. You will find FXI's foam innovations inside, around and under yourself in countless applications. We protect automobile passengers on the highway, help consumers sleep sounder and furniture manufacturers create comfort. We provide for sharper images in digital printers and help consumers keep their homes clean. We provide critical components for filters, gaskets and seals in everything from blood oxygenators to computer disk drives. Everywhere foam goes; FXI's innovations lead the way.

*Next generation Plus Pads may need to be tested to automotive OEM specifications.
