

Enhanced Durability. Premium Comfort.

When you are seeking the “gold standard” in comfort, support and endurance for your premium bedding and furniture collections, look no further than our HYPERcor™ High Resilience (HR) Foam. This open-cell, flexible polyurethane foam features a randomized cell structure that enables unparalleled support and greater surface resilience than traditional viscoelastic foams. The more you use, the longer your products will last - allowing you to offer unbeatable extended life warranties on your most luxurious comfort collections.

Resiliency

IFD is measured via ASTM 3574-11 Test B1

Features & Benefits

- Superior durability
- Excellent energy return
- High resiliency
- Bouncy, buoyant feel
- Premium support
- Higher life expectancy - enabling longer warranties

HYPERcor™ HR Foam is more resilient than conventional foams and a cost-effective, hypoallergenic alternative to latex foam.
